Dear Ms. Huppertz:

On December 21, 2005, the Department of Environmental Services, Waste Management Division ("DES") conducted an inspection of Osram Sylvania, Inc. ("Osram") in Exeter, New Hampshire. The purpose of the inspection was to determine the Osram's compliance status relative to RSA Ch. 147-A and the New Hampshire Hazardous Waste Rules, Env-Wm 100-1100.

As a result of the inspection, Osram was issued Letter of Deficiency No. WMD 06-003 (the "LOD"). Based upon a review of Osram's submittals received on December 30, 2005 and March 23, 2006, DES has determined that your facility has corrected the deficiencies identified in the LOD.

Please be advised that DES will continue to monitor Osram's compliance status through record reviews and on-site inspections. This Letter of Compliance does not release Osram from liability for penalties to which it may be subject for the violations identified in the LOD.

If you have any questions regarding this letter, please contact the lead inspector, Robert Bishop or me at (603) 271-2942. Thank you for your cooperation.

Sincerely,

John J. Duclos, Administrator
